Mr. Gary Baughman Hazardous Waste Facilities Unit Leader Colorado Department of Health 4210 East 11th Avenue Denver, Colorado 80220

Gentlemen:

The Department of Energy is formally requesting that RCRA Closure Unit 63 (Solid Waste Management Unit 212 Drum Storage) be withdrawn from OU15 schedules of the Interagency Agreement.

Solid Waste Management Unit (SWMU) 212, located in Building 371, Room 3420, is a solid waste drum storage area for transuranic (TRU) mixed wastes. The Interagency Agreement (IAG) requires closure of this unit under OU15 Inside Building Closures (IBC) by August 1992. During IAG negotiations a request to transfer TRU mixed wastes from SWMU 212 to a proposed storage area in Building 776, was deemed necessary in order to support the Plutonium Recovery Modification Project (PRMP). Due to the reorganization of the PRMP program, it is no longer necessary to transfer waste from this unit. In addition, this unit is being incorporated into the RCRA Part B Permit Application for TRU mixed wastes.

If you have any questions, please feel free to contact Thomas T. Olsen of my staff at 966-2762.

Sincerely,

David P. Simonson Assistant Manager for Environmental Management
